Located within the collection of attractions at Imbiah Lookout, SkyHelix Sentosa is an unforgettable gondola ride that reveals breathtaking views as it gently rotates 35 metres above ground along a vertical helix-like structure. Guests will enjoy unparalleled 360° sights of Sentosa and the developing Greater Southern Waterfront while dangling their feet in the air with a cool drink in hand. The ride's apex is 79 metres above sea level, making it one of the highest vantage points on Sentosa.

SkyHelix Sentosa is a new landmark within Singapore's evolving tourism landscape. Through the launch of this attraction, Mount Faber Leisure Group seeks to contribute to Singapore's vision of becoming a top sustainable urban destination by developing unique, engaging and sustainable leisure experiences around Singapore's stunning views and beautiful nature.

Mr Buhdy Bok, Managing Director of Mount Faber Leisure Group, says, "As Singapore eyes a long-term goal recovery of its tourism sector, the opening of SkyHelix Sentosa signals a strong message of hope and optimism for the industry and the country. TAKE IT TO THE NEXT LEVEL

Just a short stroll from the Singapore Cable Car's Sentosa station, SkyHelix Sentosa will be a captivating new addition to Sentosa's compelling leisure experiences.

For each "flight", guests will be seated in an open-air gondola for a 12-minute ride, which includes 10 minutes at the peak, during which the gondola will slowly rotate. From morning to night, the attraction offers guests different views of Sentosa, promising a new experience with each ride. The beauty of the SkyHelix Sentosa structure also visibly transforms from day to night. After sundown, energy-efficient LED lights illuminate the attraction, making it a beacon of light on Sentosa and a stunning new addition to the Singapore skyline.

SAFETY & SUSTAINABILITY

The SkyHelix Sentosa structure is designed and constructed by French company Aerophile, a leading expert on high-point attractions.

The gondola is completely powered by three electrical winches that are managed on-ground. Safety measures in place include an electronic safety mechanism to ensure guests are properly secured, emergency brakes, and power supply systems. Guests must meet a minimum height requirement of 1.05 metres to enjoy the ride.

As an added safety measure, an attraction host will accompany guests on the ride to ensure safety protocols are followed, while introducing the surrounding views and key landmarks as the gondola gently ascends.

SkyHelix Sentosa's energy-efficient design utilises minimal electricity for its operations. Environmentally-friendly packaging will be used for food and beverage.

ONE ESCAPEDE, COUNTLESS EXPERIENCES

SkyHelix Sentosa will be the latest experience-driven attraction by Mount Faber Leisure Group, which underwent a brand refresh in September from its former corporate brand, One Faber Group. Cementing its position as one of Singapore's leading leisure operators, the refresh is a timely reaffirmation of its commitment to introduce new memorable experiences to delight visitors, and support Singapore's domestic and international tourism.

Just last year, Mount Faber Leisure Group started its Gai Gai Tour, a two-hour guided heritage tour to encourage locals to explore the wonders around Mount Faber Park and Faber Point. Arbora Hilltop Garden & Bistro, Mount Faber Leisure Group's unique hilltop garden dining experience, was refreshed in September 2020 — introducing a brand-new indoor dining area and new menu with botanical-inspired food and drinks.

In July 2021, Mount Faber Leisure Group launched "Fly Me To Japan", the second edition of its popular destination-themed Cable Car Sky Dining series. Most recently in August, the operator also opened Arbora Café at the Singapore Cable Car Gift Shop @ Imbiah Lookout, offering sandwiches and other light bites. The highly popular Wings of Time multi-sensory night show in Sentosa is also expected to reopen in mid-2022.
